REPORT The Department of Sanskrit organised an extension lecture on "Shiksha aur Sanskrit Bodh" by keynote speaker and Novelist Dr. Ramakant sharma (Assistant Professor) under the guidance of Mrs. Rachna Arora (Principal) and Dr. Suman (Convener). This lecture aimed to students that education provides us a scientific vision. Our culture is combination of thoughts and feelings. Education and culture without practical manners just remains bound to bookish knowledge. It is necessary to make use of education in life for the development of society. In the mobile era, he emphasized the point of preservation of human-sensitivity. All the students actively engaged and fully enjoyed this lecture. Teaching staff members were also present in this extension lecture.

1. Ms. Neelam Gupta ✓
2. Dr. Apurva Batra
3. Ms. Neera Chawla
4. Ms. Anita Verma ✓
5. Dr. Anita Gaba
6. Ms. Sangita Munro ✓
7. Dr. Roshni Aggarwal
8. Dr. Nisha Rani ✓
9. Dr. Suman

On 19th May, 2023 green club AMMB organized a workshop on "Plant propagation Method". The lecture and making of the compost was given by Ms. Ekta (Co-convenor, Green club). The purpose of workshop was to make students learn about the natural process of propagating plants and how plant grow and develop. The description of process was through charts and other 3D diagrams. This helped students to gain knowledge about planting different plants through grafting, stem cuttings, layering, etc. This encouraged students to plant more plants in different ways without purchasing new ones. This workshop organized under the guidance of Mrs. Rachna Arora (principal), Dr Suman (coordinator, green club), Ms. Renu (convenor, green club). Every volunteer enjoyed this workshop and took active participation too.

Botany Department

Report of workshop under Paryas programme

A one week workshop was organised by Botany department of Adarsh Mahila Mahavidyalaya, Bhiwani from 4/5/22 - 10/5/22. The theme of workshop was 'waste management - Reuse and Recycle'. This workshop was organised under able guidance of Mrs. Rachna Arora, Principal AMMB and Mrs. Neelam Gupta, coordinator IQAC.

The aim of the workshop was to save environment from this hazardous plastic and keep clean our college and homes and recreate new and attractive items from these waste products. Another aim was skill enhancement and to make the students financially independent through exhibition of their items. We want to make our college green and healthy and reuse all the plastic waste and paper waste. In this programme students collected all the plastic waste from college campus and their home and made useful items from that waste under action of reuse and recycle.

This programme Paryas also gave a message for greenery. All the items made under the programme Paryas were made from waste items and most of the items were environment friendly.

In this workshop students collected the plastic, woolen thread, plastic bottles, ice cream stick, bori, sutli, waste papers and waste clothes from the college campus and made various types of decorative items, flower pots and macrame item woolen doll, dream catcher, jute article. On the first day of the workshop, children started making a variety of woolen items, of which woolen dolls, woolen bird, doll and swings became the center of attraction for the visitors. On the second day of the workshop, children made a variety of floor pots by using waste plastic bottle and students prepared vertical garden. In these vertical garden students cut the bottle and small flowers put into these bottles to cover the less area and more attractive and generate eco-friendly environment and prepared pop items using waste plastic bottle and POP. On the third day of the workshop made various types of decorative items such as swings, purses, penstands, showpiece, bracelet, hairband, bangle by using waste bangle etc. On the fourth day students prepared compost by using vegetable waste, dump leaves, these compost increase the soil half life, increase the plant growth life and student also prepared liquid fertilizer such as Onion liquid fertilizer, banana liquid fertilizer. On 5th day flower pots were made from plastic bottles and some decorative items such as pen stand, wall hangings and decorative items were made from macrame. On 6th day various jute articles were prepared by students by using waste bori, sutli and prepared wheel stand, wall hanging, show piece. On 6th and 7th day final finishing was done by decorating them. Vertical gardens were decorated by several attractive flower pot colours and designs. Plants were implanted in pots and all the items were ready for the exhibition cum sale. By this workshop students prepared flower pots from plastic bottles and by using cement and waste clothes.

After this workshop an exhibition cum sale was organised by IQAC cell of our college on 19 May 2022. In this exhibition all the items made by different departments were presented for exhibition and sale.

Principal

Adarsh Mahila Mahavidyalaya
Bhiwani

This programme was organised under able guidance of Mrs. Rachna Arora, Principal AMMB. The chief guest was Mr. Ashok Buwaniwala ji, General secretary of our college. This program was organised by all the heads of both NSS units Dr. Nisha Sharma, Mrs. Sangeeta Manrow, Dr. Deepu saini and Dr. Nutan Sharma. On this occasion, IQAC coordinator Mrs. Neelam Gupta and Dr. Amita Gaba, congratulated and appreciated the goods made by the students. The main purpose of organizing the "Program Prayas" was to save the environment and our natural heritage and skill development in students. By this program on plastic waste management the students gave a message to all that we should always minimise the use of plastic instead of that always use paper and clothes bags because these waste products are biodegradable waste and can be degraded in useful materials without harming to nature. In addition to that if we have waste such as plastic bottles, wrppers that cannot be degraded, should be reuse and recycle. The various methods of waste management was given by students through their items. The best method is to make the flower pots so that we can protect our nature and ourselves. The Convenor of program Prayas Dr. Nisha Sharma , Assistant Professor Physics Department congratulated the students' successful organizations on the programme completion and appreciated the guidance of her colleagues for their relevant efforts.
