

Youth Red Cross Club 2022- 23

1. State Level Campaign

2. District Level Campaign

Future Plan

YRC plans to focus more on health of students as well as teaching and non- teaching members of the staff. Special initiatives will be taken to improve the Hb levels of our girls.

Outcome

The trainees have become inspired volunteers ready to work for society and nations. They have also developed leadership skills.

Feedback

YRC has received a very positive feedback from students who went to attend the state level and district level camps. They returned as trained volunteers were happy to learn first- aid skills, awareness about hygiene and cleanliness eager to help the sick and aged, ready to work for social initiatives to save environment and much more.

In the words of Simran it was a 'Life transforming experience
